Ford Automatic Transmission Rebuild Manuals | The Motor ...

Just like that of a manual transmission, the automatic transmission's primary job is to allow the engine to operate in its narrow range of speeds while providing a wide range of output speeds.. Without a transmission, cars would be limited to one gear ratio, and that ratio would have to be selected to allow the car to travel at the desired top speed.. If you wanted a top speed of 80 mph, then ...

How Automatic Transmissions Work | HowStuffWorks

This automatic transmission has requirements for oil - it should be high quality. Producer recommends to change oil every 40 000 kilometers. If the car owner won't do it, then he will get problems with work. The sign of it is a strong jolt, while shifting gears.
