Bison Bede 80 Fault Codes - brogden.greentee.me

The Bison Bede Compact stairlift was fed power via an umbilical cable on both the A/C and D/C model. When the Bison Bede 50 stairlift was released there were no umbilical cables but instead it used charging points which were located at the top and bottom of the rail. Both the Bison Bede Compact & Bison Bede 50 fault codes were the same.

Brooks & Acorn Stairlift Fault Codes | Error Codes For ...

I have a customer with a Bison 80, when I first went to site, the batteries were flat and datum was lost. I removed the batteries, charged them, replaced them and reset the datum and the lift worked fine but wouldn't charge. With a new power supply fitted it still wouldn't charge and the power supply voltage was dropping to 15v.

Bison 80 charging problem - Stairlift Forum

F Codes – FATAL ERROR codes indicate a problem that will need a stair lift service tech. F1- Board relay fault, you will likely need a replacement board call for service. brooks 180 stairlift fault code ? | Mend Stairlifts | how ...

Thanks for info, yes batteries have approx. 28v at the charge point. I was resetting the datum when the fault occurred, switching on and off will not clear the fault, I will recheck the batteries off charge but I'm fairly sure they are ok.(2 mths old - but did get discharged, hence resetting the datum).
