**Every 2021 Car, Truck, and SUV Sold With a Manual Transmission**  
The difference between manual and automatic cars is that manual cars use manual transmission whereas automatic cars use automatic transmission. In a manual car, the driver is responsible for shifting the gears as the car's speed changes, but in an automatic car, changing gears happens automatically.

**What is the Difference Between Automatic and Manual Cars?**  
When automatic cars switch to higher gears at the wrong time, they waste engine power and cost the driver money in wasted gas. At times, switching to a lower gear in a manual car provides a needed burst of power, but automatic cars' transmissions are usually more cautious about making such gear switches on their own.

**Manual vs Automatic - Pros and Cons**  
A car cannot have both - it is either automatic, or manual. Basically, if it has a clutch pedal it is a manual. If it doesn't it is an automatic. Some transmissions look very much like a manual transmission inside, but have no clutch pedal inside the car and are registered as automatics because of this.

**What cars have both automatic and manual transmissions ...**  
Bill's answer is correct, as a transmission - defined as a singular component of a vehicle, can only be one or the other (manually operated or automatically operated). There are vehicles that have some automatic and some manual components that make...
