Constitutional Political Economy In A

Constitutional Political Economy is a forum for research in the broad field of constitutional analysis. Its grounding discipline is economics, but, the systematic study of institutions requires consideration of economic, political, legal, and philosophical motivations, rules, and effects. As a consequence, the journal is interdisciplinary and includes research from a variety of perspectives.

Constitutional economics is a research program in economics and constitutionalism that has been described as explaining the choice "of alternative sets of legal-institutional-constitutional rules that constrain the choices and activities of economic and political agents". This extends beyond the definition of "the economic analysis of constitutional law" and is distinct from explaining the choices of economic and political agents within those rules, a subject of orthodox economics. Instead, cons

Wagner argues persuasively that the epicenter of Buchanan's contributions to public choice and constitutional political economy is a humbly titled article published in 1949 in the Journal of Political Economy, "The Pure Theory of Government Finance: A Suggested Approach." [v] In brief, the suggestion offered by Buchanan in that article is that theorizing about governments as if they are single-minded, organism-like abstractions with unified visions and plans is deeply flawed. Instead ...
