Yookos was an online social networking service founded in 2011 by the leader of Christ Embassy International. It was initially used by church members, but later the site was expanded to allow public access. The site received more than half of its traffic from Nigeria and the remaining user base was from Zimbabwe, South Africa, the UK and the US.. In May 2012, it was listed among the Top ...

Kanji Study Tool. I created a Kanji study tool in conjunction with the email lists but you can use it to randomly test and expand your Kanji knowledge. Choose by JLPT or school grade level or just any random Jōyō Kanji. The format is the same as for the emails. There is also a link to download a nicely formatted PDF version of the information for each character.

A release pipeline specifies the end-to-end release pipeline for an app to be deployed across a range of stages. Deployments to each stage are fully automated by using jobs and tasks. Approvals and gates give you additional control over the start and completion of the deployment pipeline. Each stage in a release pipeline can be configured with pre-deployment and post-deployment conditions that ...
