satellites and space exploration. In 1957, there was no radar that could track a satellite so early tracking schemes were dependent on visual observation.

Something New Under the Sun: Satellites and the Beginning ...

“There is nothing new under the sun,” says Ecclesiastes. (1:9) But are we meant to understand by this that roughly 2,980 years ago a king was having one of those desultory, downer days that come along from time to time, or are we supposed to take at face value the truth that really nothing genuinely new ever happens beyond the conceit of contemporaneity imagining that it does?
