Sony's NightShot system uses the infrared spectrum to illuminate subjects in low-light (or no-light) situations. Featuring backward compatibility with 8mm tapes, the CCD-TRV68 is a great step up for people with an archive of 8mm footage. The camcorder comes with AC adapter, battery, wireless remote control, A/V cable, lens cap, and shoulder strap.

Sony Handycam CCD - TRV68. Sony Handycam CCD - TRV68 For its age this was one of the state of the art cameras available Most manufacture dates are 2001 so it is after the modification date for the infamous Sony X-Ray Cameras. This camera does not have the half on trick for Xray but using the correct 37 mm IR lenses you can get it to do Xray.
