Jointer. A Manual For The Home Craftsman And Shop Owner. A Craftsman Power Tool Handbook Catalog No. 9-2603

Once you're satisfied with the movement of the jig, pull the jig all the way forward (toward your body), raise the saw blade to slightly more than 3/4-inch. Start the saw and trim the right-side edge of the jointer jig. The saw blade should remove only about 1/8-inch of plywood. Your table saw jointer jig is now complete.
