## **of Trial-and-Error for ...**

Uncontrolled: The Surprising Payoff of Trial and Error for Business, Politics and Society by Jim Manzi is an excellent book that looks at the use of randomized field trials (RFTs) for public policy, business and society. The book advocates that RFTs be used as much as possible.

## **Uncontrolled: The Surprising Payoff of Trial-and-Error for ...**

Uncontrolled misses by an inch the 5th star for one simple reason: the unbalanced coverage in discussing experiments in business vis-a-vis experiments in science and policy. The sections of the book on business experimentation cannot help but sound like a sales pitch, as the rigorous tone disappears when talking about business experimentation.

Eg in macro-economics we can't run an experiment on one country and use another country as a control if those two countries interact heavily. With high causal density but low holistic integration, we can still run experiments on some groups and use others as controls, but analysis is hard.

## **Notes on 'Uncontrolled: The Surprising Payoff of Trial-and ...**

Hayek, who argued that this degree of government control—or in Hayek's language, "planning"—would necessarily limit growth because human society is far more complex than the understanding of the planners. Hayek termed this the "knowledge problem." By this line of think
